COMPUTERS IN INDUSTRY

Contents Volume 26

Volume 26, Nr. 1, April 1995

Survey Paper

1 An overview of automatic feature recognition techniques for computer-aided process planning
S. Subrahmanyam and M. Wozny

Regular Papers

23 A neural network approach for smoothing and categorizing noisy data
Y.B. Moon and R. Janowski

41 Application of computational geometry in optimizing 2.5D and 3D NC surface machining
Y.-S. Lee and T.-C. Chang

61 A more accurate adaptive fuzzy inference system
K.C. Chan, G.C.I. Lin and S.S. Leong

75 Decision support system for strategic logistics planning
G.P. Moynihan, P.S. Raj, J.U. Sterling and W.G. Nichols

85 Visual identification of industrial components using part family classification coding system
A.I. Edinbarough and P. Radhakrishnan

Short Note

93 Implementation and experimental study of a fuzzy logic controller for dc motors
C.M. Lim

Events

97 Calls for Papers

101 Calendar

Volume 26, Nr. 2, May 1995

Survey Paper

107 Neural–expert hybrid approach for intelligent manufacturing: A survey
S.H. Huang and H.-C. Zhang

Regular Papers

127 Form and orientation tolerance analysis for cylindrical surfaces in computer-aided inspection
U. Roy and Y. Xu

135 Automatic set-up of tool monitors by a CAM system
B. Anselmetti

147 Signal detection for human error correction in quality control
C. Sylla and C.G. Drury

161 An automatic path generation method of NC rough cut machining from solid models
C.-F. You and C.-H. Chu
175 A global optimization model for ship design
T. Ray, R.P. Gokarn and O.P. Sha
Short Note
193 Strategic management roads for knowledge-based systems success
M.G. Martinsons
Events
197 Announcement
199 Calendar

Volume 26, Nr. 3, August 1995

Special Issue: ASI '94

205 Editorial—Computer Integrated Manufacturing and Automation
P.P. Groumpos and N.T. Koussoulas
209 Programming, scheduling, and control of flexible assembly systems
P. Valckenaers, H. Van Brussel, L. Bongaerts and F. Bonneville
219 A multi-agent approach with distributed fuzzy logic control
P. Bohner
229 Information system concept for the management of distributed production
B.E. Hirsch, T. Kuhlmann, Z.K. Marciniak and C. Maßow
243 Modern fieldbus communication architectures for real-time industrial applications
S.A. Koubias and G.D. Papadopoulos
253 The modelling and simulation of a pick and place computer-integrated manufacturing (CIM) cell
H. Bartlett and J. Harvey
261 Comparison of information systems for engineer-to-order and make-to-stock situations
H. Wortmann
273 BIDPREP – An approach for simultaneous bid preparation
B.E. Hirsch, M. Krömker, K.-D. Thoben and A. Wickner
281 Coping with model–reality differences in industrial process optimisation – A review of integrated system optimisation and parameter estimation (ISOPE)
P.D. Roberts
291 Integrated process design: A generic control theory/design based framework
N. Karcanias
303 A robotic system for handling textile and non rigid flat materials
K. Paraschidis, N. Fahantidis, V. Petridis, Z. Doulgeri, L. Petrou and G. Hasapis
